

SERVING UP AUTHENTIC
**SOUTHERN
CUISINE**
in the heart of
CALIFORNIA WINE COUNTRY

DRUMS & CRUMBS is a new mobile restaurant based in the heart of California wine country. Our mission is to bring authentic southern cuisine to Sonoma County and the San Francisco Bay Area. Our food truck is the perfect accompaniment to your company event, backyard gathering or formal event!

Drums & Crumbs was created when two people who were both born in the South met in New York City and decided to open a food business together in Northern California. Our business was built on a shared love of thoughtful, well-executed food and a shared appreciation for the way good food brings people together.

Drums & Crumbs is committed to using fresh, all-natural, locally-sourced ingredients to prepare Arthur's Southern Fried Chicken, Rachel's Seasonal Fresh Fruit Cobbler, and an assortment of authentic southern sides and desserts. Drums & Crumbs presents this authentic southern menu made from local California ingredients in a fresh and modern way that was inspired by our years in New York City. This trifecta, along with a healthy dose of southern hospitality, is what sets us apart.

Whatever the occasion, from office luncheon to outdoor wedding reception, Drums & Crumbs provides a crowd-pleasing array of authentic southern cuisine, including vegetarian options. Email us at catering@drumsandcrumbs.com for more information or a price list.

SWEET TREATS

RACHEL'S SEASONAL FRESH FRUIT COBBLER

What exactly is cobbler? Although many people mistake a crumble or bottomless pie for cobbler, a true cobbler is a shallow, fluffy cake that is packed full of fruit. Rachel's Seasonal Fruit Cobbler is the perfect showcase for the bounty of seasonal fruit growing in the Greater Bay Area.

CUSTOM SOUTHERN DESSERT OF THE DAY

In addition to our (soon to be) famous cobbler, we also offer an assortment of traditional southern desserts. Some of our favorites include banana pudding, blueberry pie and, of course, red velvet cake.

ICED TEA

SUBTLY SWEET ICED TEA

Although 'sweet tea' is considered the nectar of the gods in the South, we realize not everyone shares our sweet tooth. We serve our iced tea lightly sweetened and can infuse it with seasonal fresh fruit. We can also serve our iced tea "unsweet" accompanied by a homemade fruit or herb-infused simple syrup.
