

**DRUMS & CRUMBS** is a new mobile restaurant based in the heart of California wine country. Our mission is to bring authentic southern cuisine to Sonoma County and the San Francisco Bay Area. Our food truck is the perfect accompaniment to your company event, backyard gathering or formal event!

Drums & Crumbs was created when two people who were both born in the South met in New York City and decided to open a food business together in Northern California. Our business was built on a shared love of thoughtful, well-executed food and a shared appreciation for the way good food brings people together.

Drums & Crumbs is committed to using fresh, all-natural, locally-sourced ingredients to prepare Arthur's Southern Fried Chicken, Rachel's Seasonal Fresh Fruit Cobbler, and an assortment of authentic southern sides and desserts. Drums & Crumbs presents this authentic southern menu made from local California ingredients in a fresh and modern way that was inspired by our years in New York City. This trifecta, along with a healthy dose of southern hospitality, is what sets us apart.

Whatever the occasion, from office luncheon to outdoor wedding reception, Drums & Crumbs provides a crowd-pleasing array of authentic southern cuisine, including vegetarian options.
